

Mario Jesús Delgado Hernández

Bachelor's Degree in Computer Systems Engineering

Age: 22 **Gender:** Male **Marital Status:** Single

Phone Number: 415 - 566 - 4061 **Landline:** 415 - 152- 4318

Place of Origin: San Miguel de Allende, Guanajuato, México

Place of Residence: San Miguel de Allende, Guanajuato, México

Address: Infonavit La Luz, Pino # 11 **Postal Code:** 37746

Email: mariojesusdh14200818@gmail.com

Professional Summary

Computer Systems Engineer graduate with knowledge in software development, frontend and backend technologies, and mobile application development. Skilled in JavaScript, Vue.js, Node.js, and Flutter, as well as relational databases. Interested in creating functional and efficient technological solutions, with a focus on innovation, user experience, and continuous learning.

Professional Interests

- Software and application development
- User interface (UI) design
- Learning new technologies and programming languages
- Team collaboration in software projects
- Technology-driven problem solving

Skills

- Software and application development
- User interface design and user experience (UI/UX)
- Teamwork and collaboration
- Critical thinking and problem solving
- Adaptability and continuous learning

Languages

- Spanish: Native
- English: Intermediate (B1 – CEFR)

Work Experience

Individually developed a mobile application and collaborated in a team to create a website, both designed for the Life Sciences Division, aimed at managing technical information about pesticides and fertilizers for producers, technicians, and professionals in the agricultural sector.

University of Guanajuato – Life Sciences Division (DICIVA)
December 2024 – November 2025

Mobile Application (Flutter & Dart, Individual Project):

- Implemented fast search by commercial name or active ingredient, with filters and autocomplete, improving accuracy and efficiency.
- Designed an intuitive and user-friendly interface focused on user experience and adaptable to different devices.
- Integrated the app with the website, ensuring data synchronization and consistency.
- Conducted performance, functionality, and usability testing, incorporating feedback to optimize the user experience.

University of Guanajuato – Life Sciences Division (DICIVA)
March 2024 – November 2024

Página web (Vue.js y Node.js, trabajo en equipo):

- Responsible for the frontend and performance improvements, including data validation and load optimization.
- Coordinated project planning, monitoring, and testing using agile methodologies, proposing solutions to technical challenges.
- https://frontend-fitodex.fly.dev/

Educación

University of Guanajuato, Irapuato-Salamanca Campus – School of Engineering (FIMEE)
August 2021 – December 2025

Bachelor of Computer Systems Engineering
